

SOURCEFIRE X-SERIES BUNDLES

BENEFITS:

- Cut the IPS appliance farm saving time & money
- Integrate additional applications with Crossbeam's open architecture
- Reduce energy consumption with IDS/IPS appliance consolidation
- Extend hardware capital depreciation cycles
- Single point Support with Crossbeam Unity Support

FEATURING SOURCEFIRE 3D SENSOR SOFTWARE.

The Industry leading Intrusion Protection System just gets better. With Sourcefire X-Series Bundles, you can now purchase pre-configured Sourcefire intrusion protection software on Crossbeam's X-Series from a preset menu of packages and price points. The solutions were developed to deliver the optimum performance based on the best-selling Sourcefire 3D™ Sensor software and specifically designed to address your growing network security concerns.

The Sourcefire X-Series bundles provide best-in-class intrusion detection and prevention by harnessing the power of the industry-standard Snort® rules-based detection engine. And with Crossbeam X-Series platforms, high performance with 40 Gbps throughput is assured, for the most demanding network infrastructures.

Sourcefire 3D Sensor were rigorously tested within Crossbeam and Sourcefire engineering labs and carry the Crossbeam seal of approval for use on the X-series platforms.

Want to add or extend the bundles? No problem. Pre-configured application processor modules (APM) are available for customers who want to extend the performance of the bundle or add to it later. Add additional APMs to deploy Sourcefire's RNA™ for real-time network intelligence to augment Sourcefire 3D Sensor Software inspection benefits.

With the Sourcefire X-Series Bundles, help is just a click away. Premium level support for both the hardware and software is delivered by Crossbeam's Unity Support products, where a single Crossbeam technical support engineer is ready to help, 24X7, 365 days per year.

Now is the time to upgrade to an inline intrusion protection system, reduce network appliance sprawl and start reducing network security complexity-the best intrusion protection system just got better.

ORDERING INFORMATION

Sourcefire X-45 Bundle: Scalable to 20 Gbps throughput at an entry price

Sourcefire X-80 Premium bundle: Premium package, scalable to 40 Gbps throughput

Sourcefire X-80 Premium Bundle with High availability: Premium package with single box high availability.

SOURCEFIRE X-SERIES BUNDLES DESCRIPTION

Description	Orderable Product Codes	Orderable Crossbeam Unity Support Codes
X-45 Chassis with one NPM 8650, one APM 8650, one CPM 8600 and one 3D Sensor Software license.	X45-3D-IPS	X45-3D-IPS Unity
X-80 Chassis with one NPM 8650, two APM 8650, one CPM 8600 and two Sourcefire 3D Software licenses.	X80-3D-IPS	X80-3D-IPS Unity
X-80 Chassis with two NPM 8650, four APM 8650, two CPM 8600 and four Sourcefire 3D Software licenses.	X80-3D-IPS-HA	X80-3D-IPS-HA Unity
Single APM 8650 to add to each chassis	APM 3D-IPS	APM-3D-IPS Unity

**Available from all authorized Crossbeam and Sourcefire resellers

** Crossbeam Unity Products for technical support are highly recommended and are orderable through separate product codes.

ABOUT SOURCEFIRE

The Sourcefire® vision—Security for the Real World—is not only grounded in its history but propels the company, and industry, forward. Focused on its mission to deliver intelligent security infrastructure for the most efficient and effective risk management, Sourcefire has become the world leader in real-time adaptive network security, giving organizations maximum knowledge to protect against attacks.

ABOUT CROSSBEAM

We improve the sophisticated networks of enterprises, government agencies, and service providers by architecting platforms that are more adaptable, high-performing, reliable, and secure.
